

## MDU UNINTERRUPTABLE POWER SUPPLY

## MDU - UPS

**The *Lindsay* MDU-UPS is a backup power system allowing cable operators to maintain constant power to critical network equipment during mains electricity outage.**

This *Lindsay Tough* UPS system delivers increased home phone reliability and QOS for all advanced digital services in MDU's, Office buildings, Hospitals and Schools where traditional standby power is not an option. Traditional UPS's consist of bulky expensive outdoor equipment mounted indoors by a certified electrician. Lindsay's specifically built UPS delivers 10 hours of battery backup with zero millisecond power transfer time, output overload and battery over discharge protection in a lockable polycarbonate enclosure. A low cost Installer friendly system ready to mount on a wall simply add the Lindsay LBVM900, ONU50 Optical Nodes, or the LHA35RM RF amplifier and plug into a standard 110 Volt outlet.

## SPECIFICATIONS

### TYPICAL

Standby Time	Up to 12 Hours	
Power Time Transfer	AC to Battery - 0 ms	
	Battery to AC - 0ms	
Indicators	Green LED	Normal AC Power
	Red LED	Standby, Battery Power
	12V AGM, 7AH	
Battery Overdischarge	Protected ( <i>Note 1</i> )	
Power Pack	C/UL certified	
	Input	100-240Vac / NEMA 1-15plug
	Output	15Vdc, 800mA, F type
Temperature	0° C to +40° C (+32° F to +104° F)	
Weight	5.7 kg (12.5 lb)	
Dimensions	35.5 X 25.4 X 10.7 cm (14 X 10 X 4.25 inches)	

\*\*Specifications subject to change without notice

## FEATURES

- Lockable, vented wall-mount polycarbonate enclosure
- 12-hour battery backup system
- 0 ms power transfer time, AC > Battery > AC
- Battery over-discharge protection
- Green/Red UPS status LEDs
- Aluminum die-cast amplifier housing
- Indoor, 100-240 Volt AC power pack
- Surge protection of 6kV on all ports
